All bold-faced species require some level of documentation or additional details. All CASUAL and ACCIDENTAL species, and any species not on this list, should be thoroughly documented, and this documentation forwarded to the Michigan Bird Records Committee, including any photos, audio recordings, or sketches. Species marked as RARE should include a brief description that should be submitted to the seasonal compiler. Some species are seasonally rare, but are not marked on this list. If notes are not provided for these species, the compiler may contact you to provide additional details.
